

The **Environmental Affairs Committee of the Chamber Southwest** in conjunction with **Calcasieu Parish Police Jury** is inviting you to participate in its **2nd Annual "Environmental Awareness Commercial Contest"**.

Want to create awareness and help improve our **ENVIRONMENT?**

By increasing community awareness and taking steps to help protect and preserve our environment, together we **CAN** have a positive impact on the world around us and change the future!

Choose one topic:

1. Air Quality Awareness
2. Wastewater Pollution
3. Louisiana Coastal Restoration and Protection

More information and details can be found at:

<http://www.lasciencefair.org/Forms/2018Commercial.pdf>

You can take part in this contest through your school and encourage family and friends to help improve our environment. We can all do something everyday and it's not hard. As a matter of fact, it can be easy. We have provided websites full of information to help you with your commercial.

2nd Annual
"Environmental Awareness
Commercial Contest"

Teachers,

The Environmental Affairs Committee of the Chamber Southwest in conjunction with Calcasieu Parish Police Jury is inviting your student to participate in its 2nd Annual "Environmental Awareness Commercial Contest". This contest is open to all 6th-12th grade students in Region 5 and will be held in sequence with the 2018 Regional Science Fair on date January 23, 2018. Students do not have to be present at the Science Fair to enter or win. The commercial contest is related to the goals of the committee which are associated with improving environmental conditions related to a number of topics. This year, we are focusing our commercial contest on three issues that are important to our area: **Air Quality Awareness, Wastewater Pollution, and Louisiana Coastal Restoration and Protection.**

Have your students choose one topic and create a commercial that:

1. Features local statistics and/or landscapes of Southwest Louisiana pertaining to the topic.
2. Define and introduce challenges associated with the topic and who/what it effects.
3. Present ways to improve the situation.
4. State/Challenge individuals to personally improve the situation.

Your students are free to choose from traditional or animated video to define, introduce, explain, demonstrate, and depict their thoughts and messages. For animated video the following may be used traditional, 2D vector, 3D computer, motion graphics or stop motion. Videos must be submitted in normal video format with a max time of 60 seconds (including credits). Examples of these can be found at the following link: <https://www.blopanimation.com/types-of-animation/>

One entry per individual/team/group. Team division must include three or more students from the same school. Group division can consist of school clubs or classes (ex. Science class, drama club, art class, media club etc.). Entries may be submitted by e-mail to tross@cppj.net or delivered in person on a flash drive to Tara Ross, Calcasieu Parish Police Jury, Environmental Coordinator, at 901 Lake Shore Dr. Lake Charles, 5th floor Planning and Development or Morgan Turpin, SWLA Economic Development Alliance, Economic Development and Research Director, at 4310 Ryan St. Lake Charles. Deadline for entries is at the close of the business day January 8th 2018.

The best video from each division (Air Quality Awareness, Wastewater Pollution, and Louisiana Coastal Restoration and Protection) in each category (nine total) will be displayed on the Calcasieu Parish Police Jury website <http://www.cppj.net/home> where they will then be voted on by the public to determine the best overall in each division, Air Quality Awareness, Wastewater Pollution, and Louisiana Coastal Restoration and Protection. The winning videos will be announced at the Region 5 Science Fair and will be featured on the Calcasieu Parish Police Jury Website as a public awareness video for one full year and possibly be shown on local news stations as well.

Plaques will be awarded to 1st, 2nd, and 3rd place winners in each of the following categories of each division:

Air Quality Awareness	Wastewater Pollution	Louisiana Coastal Restoration and Protection
Individual	Individual	Individual
Team	Team	Team
Group	Group	Group

All winners and teacher/sponsor of winners will be invited to a viewing party (location and date TBA).

***** Teacher/Sponsor of 1st place Overall Division winner will receive \$50 gift card*****

If you have any questions, please contact me. Tara Ross 721-3643 or tross@cppj.net .Thank you.
